DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1, 3-5, 16-20 and 23-27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shen ('152) in view of Benesty et al ('284).

Shen discloses a system and method for sound source localization. Note that Shen discloses a sound reflecting element (see claim 4).

The difference between what is claimed in the instant independent claim 1 and what is disclosed in Shen is the claim specifies that "sound delay information" is utilized. Note that the instant amendments to claim 1 are intended use limitations and provide no positive structural limitations.

Benesty et al discloses a sound source localization system and method wherein the relative time delay between the arrival of an acoustic source signal at each of a pair of microphones is used to locate the sound source.

In view of Benesty et al, it would be obvious to one of ordinary skill in this art to modify the system and method of Shen to include time delay information for sound source localization. Claim 1 is so rejected.

Dependent claims 3-5, 16-20 and 23-27 are further provided by the above noted combination of prior art.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 6-10, 21 and 22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is pointed out that claim 6, with the recent amendment, is vague and indefinite since the step of "acquiring a position" does not flow from the newly added steps of "reflecting a sound, recording acoustic ..., converting said acoustic data ..., " etc. Specifically, it appears that there is a disconnect between the step of "employing said delay information in addition to a conventional cue..." and the step of "acquiring a position of a sound source".

Allowable Subject Matter

5. Claim 28 is allowed.
6. Claim 2 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. Claims 6-10, 21 and 22 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Response to Arguments

8. Applicant's arguments filed November 6, 2008 have been fully considered but they are not persuasive. The arguments with respect to the instantly amended claim 1 are not convincing since the limitations added are intended use limitations. With respect to claim 6, the 112 rejection makes the claim unclear. It appears that the crux of the arguments with respect to allowable subject matter is contained in claims 2 and 7, which have been indicated as being allowable.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
